Product Specifications:

Product Compatibility: Universal for all Cars with Android Infotainment system (Stock/ company fitted Android system will not be compatible with this DVR)

Product Features:

- Super Brightness - Experience unparalleled illumination with the Uno Minda Premium LED Bulb. Its advanced design delivers maximum brightness with super bright 6000-lumen output, significantly improving visibility during night drives and adverse weather conditions.
- 6000K White Light - Emitting a crisp 6000K white light, this LED bulb mimics daylight, reducing eye strain and enhancing clarity. Enjoy a clearer and more focused beam, perfect for any driving scenario.
- Pure Copper for Better Heat Dissipation - Built with pure copper components, the Uno Minda LED Bulb ensures efficient heat dissipation. This advanced thermal management extends the bulb's lifespan, maintaining optimal performance over time.

- Perfect Beam Pattern - Designed for precision, the bulb provides a perfect beam pattern, ensuring a wide and even light distribution. This feature reduces glare for oncoming traffic, promoting a safer driving environment.
- Instant Start - With its instant start capability, the Uno Minda LED Bulb powers up immediately, providing full brightness without delay. No more waiting for your lights to reach their full potential.

Warranty: 12 Months
